Lots5

 Status distribution 5

What's new in Document 21.10

- **Forms**
 - **For Info users on Issued notification** - For info users now receive the Form Issued notification when a form is issued.
- **Packages**
 - **Download documents from multiple packages** - You can now download all documents from multiple packages at one time.
- **Lots**
 - **Status distribution** - Document can now notify users when a lot is in a specific status. Previously the only way to find out the status was in a report. [Read more](#)

Lots

Status distribution

The Status distribution column has been added to the Manage lot types dialog box (Actions > **Manage lot types**). Click the **Edit** icon for a lot type to open the Status distribution dialog box. You can then select a status and the contacts or roles to notify.

When the lot is in the specified status, the users or roles receive a notification of lot status change.
