 Change private comments to public 5

What's new in Document 22.2

- **Documents**
 - **Change private comments to public** – Review coordinators and administrators can now change private comments to public after the document has been released. Previously, you had to choose which comments to publish with the document but would then have to open a ticket with InEight to change unpublished private comments to public. [Read more](#)

Documents

Change private comments to public

If you mistakenly chose to not publish a comment, you can now mark the unpublished private comments as public.

When you are on the Comments tab, you can expand the **More** menu, and then click **View private comments** to see a list of all comments that have not been published.

You can select the comments you want to make public, and then click **Make comments public**.
