20.2 Release

InEight®  
**ESTIMATE**

## Qualified vs Compatible

### DISCLAIMER

This document is subject to change at any time. This document only covers software directly compatible with InEight Estimate. InEight does not assume the responsibility to verify or guarantee whether any third-party software is compatible with any other third-party software (e.g. MSSQL Server 2005 compatibility with Windows Server 2012R2).

**Qualified = Supported:** You can get support for both Qualified and Compatible platforms from InEight.

**Qualified platform ✓:** The platforms listed in the qualified category have been systematically tested by InEight as part of the release covered by the InEight Estimate Compatibility document.

**Compatible platform +:** The platforms listed in the compatible category have not been systematically tested by InEight, in this release, but based on testing in previous releases, and knowledge of the platform, InEight expects that the functionality will work and will fully support these platforms.

**Unsupported ✗:** The platform listed is not supported.
