## Overview

### Relationships and Dependencies

| From: Table                      | To: Table                   | Relationship             | Cardinality <sup>1</sup> | Comment |
|----------------------------------|-----------------------------|--------------------------|--------------------------|---------|
| SelfService_Core_UserProject(UP) | SelfService_Core_Project(P) | UP.ProjectId=P.ProjectId | M:1                      |         |
| SelfService_Core_UserProject(UP) | SelfService_Core_User(U)    | UP.User_Id=U.User_Id     | M:1                      |         |

Core\_UserProject

## API Detail

|                                      |   |
|--------------------------------------|---|
| Direction                            | From Project Suite  |
| Pagination                           | 50,000 Rows   |
| Frequency                            | All Reporting APIs are used by calling a GET method at an interval determined by the customer. InEight suggests using these APIs on an infrequent basis (once per day) to avoid potential performance impact to live systems when the returned data set could be large. |
| Trigger Method(s)                    | All default OData filters are supported   |
| Average Payload Size                 | Depends on date range selected  |
| APIM Name                            | SelfService_Core_Userproject  |
| Data Refresh/Delta/Incremental Loads | The data in this API is on a trigger-based refresh, fresh data should appear in 5 minutes or less.  |
| <b>Starting Version</b>              | 22.8  |

<sup>1</sup> 1:M = One to Many, 1:1 = One to One, M:1 = Many to one

|               |                |     |
|---------------|----------------|-----|
| Project Suite | Ending Version | N/A |
|---------------|----------------|-----|

## Supported Filters

All default OData filters are supported by this API.

## Fields

| Name               | Type           | CharMaxLength | NumericPrecision | Scale | Product | PK |
|--------------------|----------------|---------------|------------------|-------|---------|----|
| CreatedByFullName  | nvarchar       | 402           | 0                | 0     | Core    |    |
| CreatedByUserId    | bigint         | 8             | 19               | 0     | Core    |    |
| CreatedDate        | datetimeoffset | 10            | 34               | 7     | Core    |    |
| Email              | bigint         | 8             | 19               | 0     | Core    |    |
| FullName           | nvarchar       | 400           | 0                | 0     | Core    |    |
| IsActive           | nvarchar       | 400           | 0                | 0     | Core    |    |
| ModifiedByFullName | bigint         | 8             | 19               | 0     | Core    |    |
| ModifiedByUserId   | nvarchar       | 402           | 0                | 0     | Core    |    |
| ModifiedDate       | bit            | 1             | 1                | 0     | Core    |    |
| ProjectId          | nvarchar       | 402           | 0                | 0     | Core    | X  |
| ProjectName        | bigint         | 8             | 19               | 0     | Core    |    |
| SourceSystemId     | datetimeoffset | 10            | 34               | 7     | Core    |    |
| UserId             | nvarchar       | 400           | 0                | 0     | Core    |    |

## Field Descriptions

| Name               | Description   | Example                           |
|--------------------|---|-----------------------------------|
| CreatedByFullName  | The name of the individual that created the record                              | Service Account                   |
| CreatedByUserId    | User Id of the individual the created the record                                | 1                                 |
| CreatedDate        | Date record was created   | 2021-10-01 13:24:23.9722066+00:00 |
| Email              | official email address of the user  | in8fake16712@in8fake.com          |
| FullName           | First and last name of user   | Lindsey Howard                    |
| IsActive           | 1' means active and '0' means inactive  | 1                                 |
| ModifiedByFullName | The name of the individual that modified the record                             | Service Account                   |
| ModifiedByUserId   | The user id of the individual that modified the record                          | 1                                 |
| ModifiedDate       | Date record was modified  | 2021-10-01 13:24:23.9722066+00:00 |
| ProjectId          | SourceSystemId of the project that the employees are assigned to. This field is | 103578                            |

|                       |   |                |
|-----------------------|---|----------------|
|                       | labeled External Project Id in the InEight UI.  |                |
| <b>ProjectName</b>    | Text field that provides a short descriptive name of the project.   | Husky WWRP FSB |
| <b>SourceSystemId</b> | Identifier created by the system of record and used in all system communications as the primary method of specifying a unique record. This field does not display in normal use of InEight applications and can contain internal identifiers such as a GUID that is not understandable by typical system users. | 154183         |
| <b>UserId</b>         | Id assigned to a specific user  | 16712          |
