Release 19.7 summary

This release of Progress includes a new Timesheet summary and improvements that aid performance, consistency and data validation.

New features summary

- **Daily Plan**
 - **New Timesheet summary (mobile only)** – You can now see allowances allocated to employees in one view, instead of selecting individual employees to see if they have an allowance on their timesheet. [Read more](#).

Improvements summary

- **Daily Plan**
 - **Improved mobile sync performance (mobile only)** - The time that it takes for mobile syncing has been greatly reduced.
 - **Notify when Approver or Executor are missing (mobile only)** - The system now checks whether the Approver and Executor names are present on a daily plan. If either have been removed from the project and are no longer present on the daily plan, you are notified that you need to add the missing name.
 - **Update Daily Plan handling of as-built codes from Control** – If you set **Allow as-built** in Control to **Quantities**, components are allowed against that WBS in Daily Plan, and installed quantities are received in Control. Previously, if you wanted components to be allowed against the WBS in Daily Plan and for Control to receive installed quantities, you had to set **Allow as-built** to **All**.
- **Weekly Timesheet**
 - **Don't copy expired allowance to current week** - When you copy a timesheet from a previous week, the system now validates whether the allowance is still valid for the current period. If the allowance is not valid, it is not copied, but all other associated records are copied.
- **Time Center**
 - **Consistent Task ID fields** – The format of Task ID fields was made consistent across the product. [Read more](#).
 - **Send to Payroll change** - Time Center now only sends the most current timecard version and does not consider previous versions, which helps optimize system performance. There is no change to sending emergency timecards. Any version can be sent.
 - **Toggle premium field based on reason code** - When adding or changing the reason code in the Employee or Equipment grid in Time Center, the system

enables or disables the premium field based on the reason code's project setting.

Integrations changes summary

For more information on integrations, contact your InEight representative for "Integrations 19.7 Release Notes."

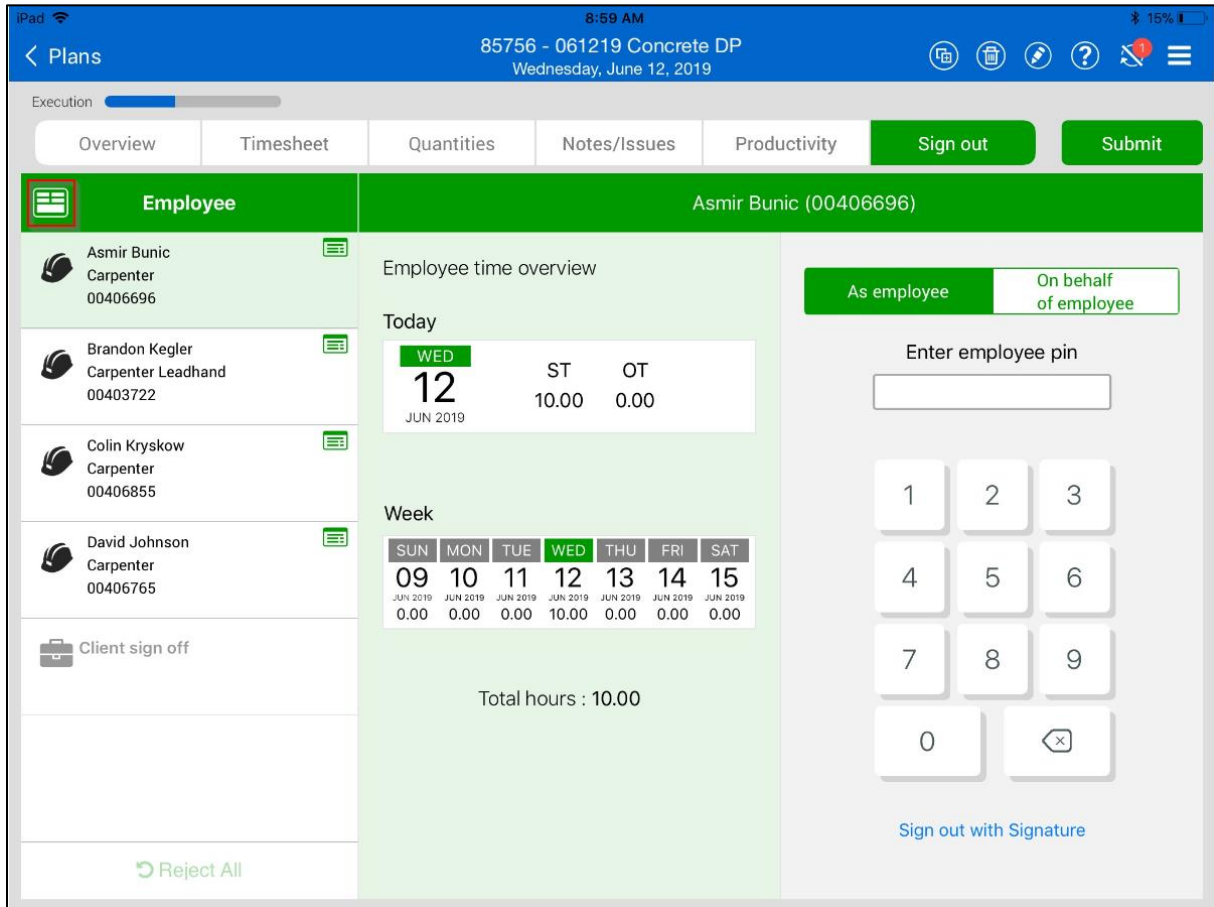

- **Enhanced integrations:**
 - **Union Payroll Indicators** – UnionCode field is no longer required.

Daily Plan

New Timesheet summary (mobile only)

The new Timesheet summary page lets you see the allowances allocated to employees in one place. Previously, you had to select individual employees to see if the employee had an allowance assigned to their timesheet.

To see the new Timesheet summary, select the icon in the upper left of the Sign out page.

The screenshot shows the INEIGHT mobile app interface on an iPad. The top status bar displays "iPad", signal strength, "8:59 AM", and "15%" battery. The app header is blue with a back arrow, "Plans", and project details "85756 - 061219 Concrete DP" and "Wednesday, June 12, 2019". Navigation icons for home, add, edit, help, and notifications are on the right. Below the header is a tab bar with "Overview", "Timesheet", "Quantities", "Notes/Issues", "Productivity", "Sign out", and "Submit". The "Sign out" tab is active. The main content area is titled "Employee" and "Asmir Bunic (00406696)". It shows a list of employees on the left, including Asmir Bunic, Brandon Kegler, Colin Kryskow, and David Johnson. The main section displays "Employee time overview" for "Today" (WED 12 JUN 2019) with "ST" (10.00) and "OT" (0.00) hours. A "Week" view shows a calendar grid for June 9-15, 2019, with "Total hours : 10.00". On the right, there are buttons for "As employee" and "On behalf of employee", a "Enter employee pin" field, a numeric keypad, and a "Sign out with Signature" link. A "Reject All" button is at the bottom left.

Employee	ST	OT
Asmir Bunic (00406696)	10.00	0.00

SUN	MON	TUE	WED	THU	FRI	SAT
09 JUN 2019	10 JUN 2019	11 JUN 2019	12 JUN 2019	13 JUN 2019	14 JUN 2019	15 JUN 2019
0.00	0.00	0.00	10.00	0.00	0.00	0.00

Timesheet summary

Done

Employee name	Extra pay (Allowances)						Total hours
	Premium	Foreman for the Day	Crane Size Bump	Davis Bacon Increase	Carpenter Travel	1\$/Hr Daily	
Asmir Bunic-Carpenter	☐	☐	☐	☐	☐	☐	10
Brandon Kegler-Carpenter Leadhand	☐	☐	☐	☐	☐	☐	10
Colin Kryskow-Carpenter	☐	☐	☐	☐	☐	☐	10
David Johnson-Carpenter	☐	☐	☐	☐	☐	☐	10
Equipment name							Total hours
Employees: 4	0	0	0	0	0	0	40
Equipment: 0							0

On this page, you can view, add and edit allowance allocations for the daily plan.

All allowances that are associated on this page are reflected on the Timesheet and on Notes/Issues tabs.

Time Center

Consistent Task ID fields

The Task ID fields were changed so that all the controls work the same across the product. The new format is:

Segment 1 + "." + Segment 2 + "." Segment 3 + "." Segment 4 + " - " + Description

Changes were made to the Add/Copy Labor, Allowance, Equipment and Maintenance Timecards slide-outs as well as the Query builder and Bulk edit slide-outs.
